

People + technology you need

Coalfire® is an industry leader in cybersecurity services and solutions. The company offers cutting-edge cyber security, advisory, and assessment services. It develops technology platforms that automate defenses against security threats for the world's leading enterprises, cloud providers, and SaaS companies. Coalfire is the leading FedRAMP® compliance assessments and red teaming services provider in the United States. We deliver managed security and compliance services trusted by over 70% of the FedRAMP market and over 1,000 organizations, including the world's most valuable companies. Our assessors, advisors, and security researchers bring unparalleled expertise, including over 900 certifications and deep knowledge of security compliance frameworks that customers must adopt to operate in financial services, healthcare, government, critical infrastructure, and other highly regulated industries.

Our Platforms

Compliance Automation

Cyber Security

Who we are. Why Coalfire.

An industry-leading cybersecurity services and solutions company

- 1. Cloud security experts.** We secure the cloud for over 700 cloud service partners.
- 2. A tech advantage.** Our technology is built on years of experience and provides visibility, automation, and speed – giving clients the benefit of confidence without complexity.
- 3. Continual and proactive cybersecurity.** Because point-in-time isn't a strategy for success, we keep clients on the offense by taking a holistic and ongoing approach to risk mitigation.
- 4. Go the extra mile.** We believe in providing the communication, support, and valued services our clients require to secure their organizations.
- 5. Always a step ahead.** We were the first to market in cloud security engineering, privacy, and critical compliance areas, and we continue to innovate to remain at the forefront of our industry.

Our commitment to our clients

Simplify cybersecurity | Protect from cyber threats | Reduce vulnerabilities | Improve security posture | Be their cyber partner
